**CONSTRUCTION UPDATE**

July 8, 2025

Re: Dobry Drive Improvements  
City Project #25-451

Dear Resident:

On June 17, 2025, City Council awarded a contract to Asphalt Specialist, LLC for the resurfacing of Dobry Drive from Ryan Rd to the Dobry Drive overpass west of Mound Road. The geometrics and footprint of the roadway will remain mostly the same after construction. The goal of the project is to fully remove the deteriorating surface and replace it with a new cross section of stone and asphalt pavement.

To enable construction, **only one-way eastbound traffic will be maintained** during the duration of construction. Detours will be posted for westbound traffic along M-59, Mound Rd, 19 Mile and Ryan Rd.

The work is anticipated to begin approximately the week of July 14<sup>th</sup> pending weather and be completed by Labor Day. Electronic message boards will be placed to keep you posted of the exact start date.

Should you have any questions or concerns regarding road improvements, please contact me directly at 586-446-2735 or the Office of Engineering at 586-446-2720.

Project updates will be posted on [sterlingheights.gov/conezone](https://sterlingheights.gov/conezone) or scan the QR Code below.

Sincerely,

Sam Genna  
Project Engineer
